

# Third Research Colloquium: Critical Reading of Sources

## IberLAND, Beyond Property

(ERC Project n. 101000991)  
Leibniz Universität Hannover, Historisches Seminar

25 April – 18 July 2023

*In each session we will discuss a source from the archival research of one of the colloquium's participants. The aim will be to locate and understand the language, arguments and strategies that the actors introduced in the text. By discussing and contrasting the insights that all participants will bring from their own case and research experiences, we hope to collectively improve our source-reading skills.*
